LAWS

MS CODE 37-17-7. Accreditation of Nonpublic Schools.

Any nonpublic school may, through its governing body, request that the State Board of Education approve such institution. Approval shall be based upon a process promulgated by the State Board of Education; provided, however, that in no event shall the State Board of Education adopt more stringent standards for approval of nonpublic schools than the accreditation standards applied to public schools.

MS CODE 37-17-9. Accreditation by Other Agencies.

This chapter shall not be construed to establish the only accrediting agency in the State of Mississippi, and nothing contained herein shall be construed to prevent any nonpublic school association or associations or group or groups from establishing its or their accrediting agency, unrelated to any such accrediting agency for public schools as established by this chapter. Nothing in the chapter shall prevent such nonpublic school accrediting agency or agencies from functioning in such capacity.

MS CODE 37-43-1. Textbooks.

This chapter is intended to furnish a plan for the adoption, purchase, distribution, care and use of free textbooks to be loaned to the pupils in all elementary and high schools of Mississippi. The books herein provided by the State Board of Education, which shall be the State Textbook Procurement Commission, shall be distributed and loaned free of cost to the children of the free public schools of the state and of all other schools located in the state, which maintain educational standards equivalent to the standards established by the State Department of Education for the state schools as outlined in the Nonpublic Schools Accreditation Requirements of the State Board of Education.

Teachers shall permit all pupils in all grades of any public school to carry to their homes for home study, the free textbooks loaned to them, and any other regular textbooks whether they be free textbooks or not. For the purposes of this chapter, the term "board" shall mean the State Board of Education.

Textbook shall be defined as any medium or manual of instruction which contains a systematic presentation of the principles of a subject and which constitutes a major instructional vehicle for that subject.

INTRODUCTION

Any nonpublic school may voluntarily request accreditation. Accreditation of a nonpublic school will be determined by the extent to which the school complies with each of the applicable requirements described in this document.

Some differences exist between public school boards and government agencies that have responsibilities for disbursing public funds and the governing body or policy-making authority of privately funded schools, which may delegate more fiscal freedom to the chief school administrator. Although the accreditation standards for nonpublic school are in many cases identical to the process standards for public schools, nonpublic schools do not participate in the accountability system and school performance model for public schools. Also, some exemptions and interpretations are allowed for special purpose schools serving special populations, church-related schools, and tribal schools. For the purposes of this nonpublic school accreditation process, the following definitions are used.

School: A school is defined as an institution for the teaching of school-age children that consists of a physical plant on one school site, whether owned or leased, has one principal administering the educational program for all the grades in the school, includes instructional staff members and students, and is in session each school year.

- Home schools and home schooling programs, including those that are affiliated with an accrediting agency, are specifically excluded from this definition and are not eligible to participate in the State Board of Education (SBE) accreditation process.
- Also excluded from this definition are day care centers, preschool programs {except for special preschool programs specifically designed to serve children with disabilities according to the Individuals with Disabilities Act (IDEA) and Preschool Grant regulations}, and post-secondary programs including adult education or vocational training programs specifically designed to serve an adult-age student population.

Nonpublic School: The term nonpublic school includes the following: (a) private schools, (b) church-related and parochial schools, (c) special purpose schools either privately owned and operated or governed by a public agency other than the State Board of Education (SBE), and (d) tribal schools funded by the Bureau of Indian Affairs.

Special Purpose School: A special purpose school is defined as one that is organized to serve a special population of students or to provide a special program of instruction for students.

A special purpose school that serves students with disabilities must meet all relevant state and federal requirements for special education programs in accordance with IDEA and applicable state statutes and regulations.

Church-Related School: A church-related school is defined as one that is governed and operated by a denominational, parochial, or other bona fide church organization or religious order.

School Board: A school board is defined as a governing or policy-making body in authority over a school. (See *school board* in Glossary, page 40.)

POLICIES

NONPUBLIC SCHOOL ACCREDITATION POLICIES

Accreditation of nonpublic schools will be determined by the extent to which the school complies with each of the applicable requirements contained in this document. Information concerning each school's compliance with accreditation requirements and standards will be reported to the State Board of Education on an annual basis.

1.0 PARTICIPATION

Any nonpublic school serving school age students may, through its governing body, request to be accredited by the State Board of Education. Accreditation shall be based on a process promulgated by the State Board of Education.

1.1 Definition of a Nonpublic School

The term *nonpublic school* includes private schools, parochial and other church-related schools, special purpose schools either privately owned and operated or governed by a public agency other than the Mississippi Department of Education, and Indian schools funded by the Bureau of Indian Affairs. Nonpublic schools may be operated either as a for profit organization or as a nonprofit, tax-exempt corporation.

1.2 Exclusions

Home schools and home schooling programs, including those that are affiliated with an approved accrediting agency, are specifically excluded and are not eligible to participate in the State Board of Education accreditation process. Also excluded are day care centers serving children below the age of 6, preschool programs (except those serving children ages 3-5 with disabilities), and adult education programs specifically designed to serve an adult-age population.

1.3 Initial Accreditation

Initial accreditation requires any newly applying school to be fully operational and to substantiate compliance with all accreditation requirements of the State Board of Education. Sufficient data necessary to substantiate compliance with all accreditation standards must be available at the time of the initial accreditation audit. Each nonpublic school voluntarily seeking initial accreditation must have conducted a program of educational services for a period of at least one calendar year prior to the date of proposed State Board of Education accreditation. This one-year requirement is not applicable to educational programs under the jurisdiction of state agencies currently operating accredited school programs.

2.0 ASSIGNMENT OF ACCREDITATION STATUSES

Accreditation of a nonpublic school will be determined by the extent to which the school complies with each of the applicable requirements contained in this document. Information concerning the school's compliance with accreditation requirements and standards will be reported to the State Board of Education on an annual basis.

2.1 Annual Assignment of Accreditation Statuses

Annual accreditation statuses are assigned in December each school year and are determined by information verified during the previous school year. An assigned accreditation status remains in effect during that school year unless (a) the correction of deficiencies in meeting accreditation standards upgrades a status or (b) a verified report of noncompliance with accreditation requirements and/or standards is of such a nature that special State Board of Education action to downgrade a status is warranted.

2.2 Process Standards

Process (input) standards address accepted educational principles and practices that are believed to promote educational quality. Any verified violation of a process standard is noted on the record of a school at the time of discovery within any school year, but does not affect the current accreditation status of the school. If a noted violation of a process standard has not been corrected by the following school year when accreditation statuses are assigned, the violation is reported to the State Board of Education for appropriate action. The State Board of Education reserves the right to suspend school compliance of any accreditation process standard that is not directly mandated by state or federal law.

2.3 Accreditation Statuses

Accreditation statuses assigned by the State Board of Education are (a) Accredited, (b) Advised, (c) Probation, (d) Temporary, and (e) Withdrawn.

Accredited. A nonpublic school will be assigned an accredited status when the school is in compliance with each of the applicable accreditation requirements and standards as described in this document.

Advised. A nonpublic school will be assigned an Advised status the first year that the school fails to comply with all of the requirements as described in this document.

Probation. A nonpublic school will be assigned a Probation status if the school was assigned an Advised status the previous school year and the nonpublic school has not taken corrective actions or has not resolved the process standard deficiencies that resulted in the Advised status. The nonpublic school will be required to develop a corrective action plan to address the deficiencies. (See Accreditation Policy 3.2.)

Temporary. A special purpose school that serves students with disabilities may be assigned a Temporary status when (a) the special purpose school is in compliance with IDEA and relevant state regulations and (b) is accredited by the Southern Association of Colleges and Schools or by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). A Temporary status may also be assigned to a satellite school established by the governing body of an accredited nonpublic school currently on record with the State Board of Education.

A Temporary status will expire twelve months from the date that the Temporary status was assigned and is not renewable. During the twelve-month period, the school may apply to the State Board of Education for an accreditation status.

Withdrawn. A nonpublic school will be assigned a Withdrawn status when the school has been previously assigned a status of Probation and the school fails to meet the goals and timelines for resolving identified deficiencies as stated in its approved corrective action plan.

3.0 DEFICIENCIES AND CORRECTIVE ACTION

The chief school administrator is informed in writing when information on file in the Mississippi Department of Education indicates that the school may be in violation of accreditation requirements. The school is then given thirty days from the date of receipt of notification to respond in writing to any deficiency cited.

3.1 Correction of Deficiencies

During the thirty-day period, school officials may schedule a conference with appropriate Mississippi Department of Education staff members in order to discuss the deficiencies cited. If the school's written response includes appropriate evidence needed to resolve the deficiencies, these corrections will be made on the records of the school. If insufficient evidence is submitted or if the school verifies that the cited deficiencies do exist, the school's records will be presented to the State Board of Education for appropriate action. A school found in violation of federal and state regulations regarding special education will be provided specific timeframes for correction of deficiencies. If timelines are not met, the school's records will be presented to the State Board of Education for appropriate action.

3.2 Corrective Action Plans

When a school receives official notification that it has a status of Probation, the school is required to file a corrective action plan within sixty days. The plan must stipulate what will be done to resolve the deficiency and the timeline required. The plan must be approved by the school board (governing body or policy making authority) as documented by official minutes or resolutions. As an indication of mutual agreement, the plan must bear the signatures of the chairperson, president, or presiding officer of the governing body and the chief administrator of the school. The corrective action plan must be submitted to:

**Office of Accreditation
Mississippi Department of Education
Post Office Box 771
Jackson, Mississippi 39205-0771**

The State Board of Education will designate Mississippi Department of Education staff to review the plan. After the plan is approved by the MDE, written notice is given to school officials. When corrective action has been implemented to resolve a citation, the school must submit documentary evidence confirming such. Assigned MDE staff may conduct follow-up visits as necessary to verify corrective action and compliance.

The school must provide a written account outlining the progress made toward eliminating each deficiency remaining on record prior to the next annual meeting of the State Board of Education to assign accreditation statuses. Based on the report, the State Board of Education will take appropriate action concerning the school's accreditation status. The final authority for judging the success of the corrective action plan is vested in the State Board of Education

4.0 REMOVAL OF ACCREDITATION STATUS

Before acting to remove a school's accreditation status, the school will be notified in writing of the option to

voluntarily withdraw from the accreditation process without prejudice. (See **Nonpublic School Accreditation Policy 5.0.**) If school officials choose the option not to withdraw, the appeal procedures in Section 10.0 of this document will be followed. The State Board of Education will take action to remove a nonpublic school's accreditation status only when (a) the school fails to submit a corrective action plan as required, (b) the school fails to meet the goals and timelines for resolving identified deficiencies as stated in its corrective action plan, (c) accumulated violations are of such a serious nature that special State Board of Education action is warranted, or (d) an intentional act of reporting false information is confirmed. When the State Board of Education takes action to remove the accreditation status of a nonpublic school, the accredited status will be noted as **Withdrawn**. When the accreditation status of a nonpublic school is removed for any of the reasons described in this section, the school may not be reconsidered for accreditation until one full school year has passed. Prior to being reconsidered as an accredited nonpublic school, the school will be evaluated by a committee designated by the State Board of Education. If the committee confirms that the school is in compliance with all accreditation requirements and standards, then the reinstatement status of the school will be **Probation** for one school year.

5.0 VOLUNTARILY WITHDRAWING FROM ACCREDITATION PROCESS

A nonpublic school may voluntarily withdraw from the accreditation process at any time without prejudice by submitting a written request signed by the school board chairperson or presiding officer of the governing body or policy-making authority and the chief school administrator. When a nonpublic school voluntarily withdraws from the accreditation process, all school records are moved to the inactive files and remain on file with the Mississippi Department of Education as a previously State Board of Education accredited nonpublic school.

6.0 REINSTATEMENT PROCESS

A previously State Board of Education accredited nonpublic school whose school records are noted as **Inactive** may request to be reinstated using the same procedures and criteria for initial accreditation. (See **Nonpublic School Accreditation Policy 8.2.2.**)

7.0 ANNUAL REPORTING PROCEDURES

Each nonpublic school voluntarily seeking accreditation from the State Board of Education accreditation is required to submit certain information annually. The four required annual reports are (1) Annual Application Form, (2) Annual Compliance Report, (3) Annual Personnel Data Report, and (4) Summer School/Extended Year Report. All data reported to the State Board of Education must be true and accurate. All required data must be submitted within established timelines. Failure to submit required data within established timelines may affect the accreditation status of the school. The chief administrator of the nonpublic school is responsible for ensuring the accuracy and integrity of all data reported to the State Board of Education.

7.1 Annual Application Process

A nonpublic school voluntarily seeking Accreditation from the State Board of Education must request annual accreditation by direct application. The official request for State Board of Education accreditation must be signed by the chief school administrator and the chairperson of the governing board. Completed applications **must** be received no later than **October 1** of each school year. Any changes or revisions of data on the application form should be reported immediately to the Office of Accreditation. The application form includes the areas listed below.

7.1.1 Identifying Information

- Name, mailing address, and telephone number(s) of the school;
- Name of the chief school administrator; and
- Name, address, and phone number of the chairperson of the governing board.

7.1.2 Enrollment Data and Staffing

- Number of students currently enrolled by grade, race, and gender; and
- Number of instructional staff members by grade level and total.

7.1.3 Annual Calendar of School

7.1.4 Participation in Federal/State Funded Programs

7.1.5 Graduation Data

7.1.6 Preliminary List of School Staff

7.2 Annual Compliance Report

Each nonpublic school voluntarily seeking accreditation must complete the Annual Compliance Report. The Annual Compliance Report includes a questionnaire, a report of noncompliance with accreditation standards, and a statement of assurances signed by the chief school administrator. The compliance report must be completed and submitted by **October 1** with the application form.

7.3 Annual Personnel Data Report

Each accredited nonpublic school is required to complete and submit the personnel data report for each school employee. The personnel data report must be submitted each school year within the timelines established by the Office of Management Information Systems. Specific reporting requirements are outlined in the current edition of the *Mississippi Personnel/Accreditation Data Report Reference Manual*.

7.4 Summer School/Extended Year Report

Each accredited nonpublic school providing a Summer School and/or Extended Year Program must report those programs to the Mississippi Department of Education. This report is not required for special purpose schools providing twelve-month continuous educational programs.

8.0 ACCREDITATION MONITORING PROCEDURES

Staff in the Office of Accreditation will continuously monitor nonpublic schools to evaluate and validate compliance with accreditation requirements. Evaluation and monitoring include analysis of data reported, annual compliance reports, and field audits. Documentation that confirms data reported must be on file and available for review if requested. Failure to provide requested documentation necessary to validate data reported may result in the assignment of a Probation status. Reporting false information is a violation of the requirements set forth by the State Board of Education and may result in the withdrawal of a school's accreditation status. All nonpublic schools voluntarily seeking accreditation are required to provide access to reports, correspondence, records, and any other documents necessary to validate compliance with accreditation requirements and standards. The State Board of Education will review all available accreditation information to determine the school's compliance with accreditation requirements and then assign the appropriate accreditation status to the school according to Accreditation Policies 2.0 and 2.1.

8.1 Annual Analysis and Validation of Data

The State Board of Education will designate Department of Education staff to review annual reports and direct audit teams, as needed, to validate the information. Upon review of the compliance report and application requesting accreditation, the staff will compare the information with any other data on file within the Mississippi Department of Education, notify the school of any inconsistency in

reporting or any apparent deficiency in meeting accreditation requirements, and work with the school to clarify or eliminate said inconsistency or deficiency.

Information submitted by each school will be validated by auditors through in-house procedures and on-site audits. Based upon information received and reviewed, the staff will submit to the State Board of Education in writing the recommended accreditation status for each nonpublic school. The State Board of Education will review the staff recommendations and act on accreditation records, advising each chief school administrator and chairperson of the governing board in writing of the accreditation status assigned the school.

8.2 Field Audits

The State Board of Education will designate staff in the Mississippi Department of Education to conduct field audits of nonpublic schools to determine compliance with accreditation requirements and standards. The results of all on-site audits will be compiled in a report and noted in each school's current accreditation records.

8.2.1 Scheduled Site Visits

On-site accreditation audits of nonpublic schools will be scheduled on a five-year cycle and will be conducted by a team of trained evaluators under the supervision of a Mississippi Department of Education auditor or other designated staff. The scheduled site visit will be conducted at the expense of the nonpublic school. The nonpublic school will provide travel expenses (meals, mileage, and overnight accommodations) for assigned evaluators. Staff from the Office of Special Education will determine compliance with state and federal special education regulations at no cost to the nonpublic school.

Schools that are accredited by the Southern Association of Colleges and Schools (SACS) will not be required to incur the cost of an additional on-site evaluation conducted by a team of trained peer evaluators. The report of the school's most recent SACS on-site evaluation and the current School Improvement Plan will be utilized in determining compliance with the applicable accreditation standards contained in this document.

8.2.2 Initial Accreditation

The initial accreditation audit of a nonpublic school not previously on record with the Mississippi Department of Education must be conducted by a designated committee before an accreditation status is assigned. The purpose of the initial on-site visit is two-fold: (a) to confirm the information reported on the accreditation request application and (b) to verify compliance with all accreditation requirements and standards specified in this document.

A newly applying nonpublic school not previously on record with the State Board of Education must be fully operational at the time of the site visit. Each nonpublic school voluntarily seeking initial accreditation must have conducted a program of educational services for a period of at least one calendar year prior to the date of proposed State Board of Education accreditation. (**See exemption for state agency schools in Nonpublic School Accreditation Policy 1.3.**) Sufficient data necessary to substantiate compliance with all

accreditation requirements and standards must be available.

8.2.3 Summer School/Extended Year Audits

A percentage of schools providing summer school and extended year programs may be audited annually to verify information contained in the annual Summer School/Extended Year Report.

8.2.4 Investigative Audit

An investigative evaluation is conducted in response to a formal complaint. All formal complaints made against a school must be submitted to the Office of Accreditation in writing and bear the signature of the individual(s) filing the complaint. When a written complaint is received that contains allegations of noncompliance with accreditation requirements, MDE staff will contact the school officials and provide assistance to resolve the complaint. If the complaint is not resolved, the school administrator will be notified in writing of the nature of the complaint and informed that the school is subject to an unannounced audit to investigate the allegations. Upon completion of the investigative audit, a written report is sent to the complainant, school administrator, and chairperson, president, or presiding officer of the governing body or policy-making authority.

8.3 Trained Evaluators

Evaluators must complete an initial training program conducted under the supervision of the Mississippi Department of Education and demonstrate competence in the areas of training. Trained evaluators must also complete designated continuing education programs.

9.0 COMPLAINTS

All formal complaints made against a nonpublic school must be submitted in writing and must bear the signature of the individual(s) registering the complaint. The written complaint must include sufficient details concerning the school's alleged violation of accreditation requirements and standards. If the complaint addresses an area over which the State Board of Education has no authority, the individual filing the complaint will be informed in writing. Procedures for conducting an investigative audit are addressed in Accreditation Policy 8.2.4.

10.0 HEARING AND APPEAL PROCEDURES

The governing authority of a nonpublic school may request a hearing by filing a written notice for such with the Office of Accreditation within ten (10) calendar days of receipt of the decision of the State Board of Education.

10.1 SBE Representative

Upon receipt of such written request for hearing, the chairperson of the State Board of Education will assign, in writing, a duly authorized representative previously appointed by the State Board of Education to hear such controversy.

10.2 Notification of Hearing

The authorized representative will set the time, place, and date for a hearing and will notify all parties of the time, place, and date of the hearing by registered or certified mail, return receipt requested.

10.3 Hearing Procedures

All parties will be afforded an opportunity at the hearing to present matters relevant to the issue or

issues involved, and all parties may be represented by counsel at the expense of the party. The hearing will be conducted in such a manner as to afford all parties a fair and reasonable opportunity to present witnesses and other evidence pertinent to the issues and to cross-examine witnesses presented by the opposing party. The authorized representative may permit any portion of the evidence to be submitted in the form of depositions or affidavits; and in case affidavits are received, an opportunity to present counter-affidavits will be provided.

10.3.1 It will be the responsibility of each party to the hearing to secure the attendance of such witness or witnesses as the party deems necessary or appropriate, and any expense connected with the attendance of such witnesses will be borne by the party responsible for the attendance of the witness.

10.3.2 In conducting the hearing, the authorized representative will not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, provided however, hearsay evidence, if admitted, will not be the sole basis for the determination of facts by the authorized representative.

10.3.3 The party filing the written notice of hearing will have the burden of going forward with the evidence when the hearing begins and at the conclusion of the hearing may present evidence in rebuttal of that adduced by the opposing party. At the conclusion of the hearing, the authorized representative will grant any party the opportunity to present a statement in such party's own behalf, either in person or by such party's attorney.

10.3.4 All hearings held before the authorized representative will be recorded and transcribed by a court reporter whose fees and costs of transcription will be paid by the school involved within forty-five days after having been notified of such costs and fees.

10.4 Recommendation to Resolve the Controversy

Within thirty calendar days of the conclusion of the hearing, the authorized representative will file a written recommendation to the State Board of Education as to the resolution of the controversies.

10.5 SBE Decision

Within thirty calendar days of receipt of the transcribed record and the recommendation of its representatives, the State Board of Education will make its decision and notify all parties in writing by certified or registered mail, return receipt requested, of the State Board's decision. The decision of the State Board of Education will be final.

STANDARDS

NONPUBLIC SCHOOL ACCREDITATION STANDARDS

Accreditation will be determined annually based on compliance with each of the applicable accreditation standards described in this document.
Some exemptions of certain standards are allowed for special purpose schools, church-related schools, and tribal schools. Refer to the specific notes for clarification of each standard.

Mission Statement and Strategic Planning

1. The school has a mission statement that is in writing and based on the needs of the target population (students, clients, etc.) to be served.
2. The school engages in annual strategic planning to review the educational status of the school and to address specific actions to improve the quality of its educational programs. **(See Appendix H.)**

Note: The current School Improvement Plan developed by schools that are accredited by the Southern Association of Colleges and Schools (SACS) will meet the requirements of this standard.

School Governance and Policies

3. The school is governed through official policies approved by the governing body or policy-making authority under which the school operates.

Note: Some differences exist between public boards and state agencies that have responsibilities for disbursing public funds and the privately funded school board, which may delegate more fiscal freedom to the chief administrator of the school. Advisory councils or boards of parochial and church-related schools must meet requirements of the church as established by the churches' religious leaders. For Catholic schools, the Bishop may veto any board action or, in extreme cases, may dissolve the board. The Choctaw Tribal Schools are governed by policies of the Tribal Council in accordance with the Constitution and Bylaws of the Mississippi Band of Choctaw Indians.

- 3.1 The governing body or policy-making authority maintains records of all official actions in minutes dated and signed or approved by the chairperson and secretary of the school board or by the presiding officer and secretary of the governing body or by the chief executive officer (CEO) of the policy-making authority.
Note: The governing body or policy-making authority may be able to fulfill its leadership and policy roles with less than monthly meetings.
- 3.2 The official policies of the governing body or policy-making authority are in writing, on file in the school's administrative office, and ensure that rules and regulations are established under which the school is administered.
- 3.3 School board policy establishes written procedures for placement of students in the program and procedures for students to exit the program.
- 3.4 School board policy addresses the development of guidelines for school-wide student disciplinary practices.
- 3.5 Employment and dismissal of all personnel follow written procedures and regulations established by the governing body or policy-making authority.

4. School board policies prohibit discriminatory practices in the operation of the school.
 - 4.1 Written policies are based on the unique mission of the school and are applied consistently.
 - 4.2 Written employment policies are applied consistently and ensure that the school is an equal opportunity employer.

Administration, Organization, and Coordination

5. Each school is administered by a full-time, appropriately licensed, administrator (principal, superintendent, director, or headmaster) who is located at the school site and operates the school in accordance with established policies and procedures.

Special Purpose School Exemption: The school administrator may be employed half time in a special purpose school if the total number of instructional staff members, including teachers, counselors, librarians, paraprofessionals, support staff, etc., is less than six staff members.

6. The school implements a formal personnel appraisal system for licensed staff that includes an assessment of employees' on-the-job performance. {MS Code 37-3-46(b)}
7. The school implements a professional development program that complies with the Mississippi Professional Development Model and its guiding Principles of Excellence.
8. The school is in compliance with all state and/or federal requirements for the following programs if they are part of the education program:
 - 8.1 Early Childhood Programs (Refer to the *Guidelines for Kindergarten Programs*) (SB Policy IDAC and FDD-4)
 - 8.2 Vocational-Technical Education {MS Code 37-31-1 et. seq.} (SB Policies CT, DCK, DFBC, ECK, FJ, GBEA, IDAA, IL, JHF, and Federal Code)
 - 8.3 Special Education {MS Code 37-23-1 through 9} (SB Policies IDDF and Federal Code) [See *Mississippi Policies and Procedures regarding Children with Disabilities under the Individuals with Disabilities Education Act Amendments of 1997 (IDEA-97)* and the Mattie T. Consent Decree.]
 - 8.4 Child Nutrition {MS Code 37-11-7} (SB Policies EE and EEH and Federal Code)
 - 8.5 *No Child Left Behind Act of 2001*: Titles I, II, IV, and VI (IDDBB 2, 3, and Federal Code)
 - 8.6 Technology in the Classroom {MS Code 37-151-19 (3)} (SB Policy IM)
 - 8.7 Driver Education {MS Code 37-25-1 et seq.} (SB Policy IDDE)
 - 8.8 Pre-Kindergarten (Refer to the *Mississippi Pre-Kindergarten Curriculum*.)
 - 8.9 Other State or Federally Funded Programs
9. The school is in compliance with state law and State Board of Education policies for state adopted textbooks. {MS Code 37-43-1, 37-43-51, 37-9-14(2)(b), and 37-7-301(ff)} (Refer to the current edition of *Textbook Administration Handbook Rules and Regulations*.)

SUGGESTED CRITERIA FOR DEVELOPING A STRATEGIC PLAN
STANDARD 2

The School Improvement Planning process utilized by the Southern Association of Colleges and Schools (SACS) will meet the strategic planning requirements of standard 2.

PURPOSE

The purpose of a strategic plan is to identify a school's strengths, needs, and goals and then to outline strategies for implementing necessary changes and improvements.

PARTICIPANTS/SOURCES OF INPUT

The plan is jointly developed by school personnel, the school community, and representation from the board. This participation is documented.

SOURCES OF INPUT

Each school establishes structures that solicit regular input of community citizens, students, and staff regarding the policies, procedures, programs, and operation of the school. The board considers such input as the plan is developed.

DATA SOURCES

The plan is based upon but not limited to the following:

1. A survey that reflects pupil, faculty, and community attitudes or opinions concerning the school's administration and programs;
2. An outline of the school's instructional management program that indicates how the curriculum is aligned from subject to subject and from grade to grade;
3. An analysis of student achievement data, with emphasis on the evaluation component of the instructional management program;
4. The school's improvement plan (where applicable) that is designed to address cited deficiencies in meeting SBE accreditation requirements;
5. Student, staff, and community demographic data; and
6. A description of the school's strengths, needs, and goals.

CONTENTS

The contents of the plan include identified goals, the means of achieving these goals, and the timelines required. The plan includes but is not limited to the following:

1. A written mission statement that reflects the purpose of the educational program and the ways the mission will effect school operations.
2. A description specifying how student achievement will be advanced in the school over the time of the plan.

NOTE: Supplementary documents (data sources) used to identify strengths, needs, and goals of the school are not required as a part of the plan but should be available for review.

ANNUAL ACCREDITATION

The board evaluates, revises (if needed), and approves the plan on an annual basis.

CRITERIA FOR DISTRIBUTION

The plan is made available for review upon request to patrons of the school, to media with coverage in the general area of the school, and to officials in the Mississippi Department of Education.
